Chapter 1. Introduction	1
The Solid Waste Dilemma	1
Making Solid Waste Management a Priority	2
Goals of This Guide	3
Chapter 2. Developing Solid Waste Management Plans	5
What Is a Solid Waste Management Plan?	5
Reasons To Develop a Solid Waste Management Plan	6
Getting Started	8
Steps in Developing a Solid Waste Management Plan	9
Conducting a Waste Stream Analysis	14
Chapter Highlights	17
Resources	18
Chapter 3. Developing, Implementing, and Enforcing Solid Waste Codes, Laws, and Regulations	19
Developing a Solid Waste Management Code	20
Implementing a Solid Waste Management Code	26
Enforcing a Solid Waste Management Code	30
Chapter Highlights	31
Resources	31
Chapter 4. Solid Waste Collection and Disposal Programs	33
Getting Started	33
Collection Options	34
Transfer and Disposal Options	38
Addressing Open and Illegal Dumps	48
Chapter Highlights	51
Resources	51

Chapter 5. Waste Reduction, Buying Recycled, and Manufacturing with Recovered Materials	53
Why Tribes Set Up Waste Reduction Programs	53
Setting Up a Materials Collection Program	54
Beyond Recycling: Source Reduction, Reuse, and Composting	58
Buying Recycled Products and Manufacturing with Recovered Materials	61
Manufacturing with Recovered Materials	64
Chapter Highlights	64
Resources	64
Chapter 6. Public Education and Community Outreach	67
Designing an Effective Education Program	67
Sample Educational Tools	71
Instituting the Community Education Program	75
Sample Educational Program: Illegal Dumping	77
Chapter Highlights	79
Resources	79
Chapter 7. Funding Your Solid Waste Management Program	81
Major Program Costs	81
Sources of Funding	82
Finding Out About Funding Opportunities	86
Building Strong Relationships	88
Chapter Highlights	89
Resources	90
Acronyms List	93
Appendix A. Glossary	95
Appendix B. Tribal Information Sources and Contacts	99
Appendix C. Sample Public Education Tools Used by Tribes	107
